

# NATHAN MISSET

Software developer

## About Me

Graduated this summer at Amsterdam University of Applied Sciences. In my free time I like to play the piano, play board games and climb with friends. I like to some day start an indie game studio with a friend of mine.

## LANGUAGE

- Dutch
- English

## EXPERTISE

- .NET
- Java
- VR
- Unity
- SQL
- Arduino
- Python

## EXPERIENCE

### Intern Android Developer

2023 - 2024

*Lectoraat Legal Management, Amsterdam University of Applied Sciences - Amsterdam*

The Lectorate wanted an app based on their board game. The board game was intended to help lawyers reflect on their methods of dealing with Objection from citizens. During my internship, I laid the groundwork of the app and gave advice on choosing new talent to continue the project.

### Intern Full Stack Developer

2019 - 2020

*Hersencentrum - Haarlem en Amsterdam*

*During my internship at Hersencentrum I was hired to rebuild an old program. I started with suggesting a web app. This meant that the program could be used on multiple location, which wasn't possible with the old program. I made this in .Net which I had to learn independently.*

## EDUCATION

### Amsterdam University of Applied Sciences

HBO ICT Game Development  
2017-2024

## OTHER SKILLS

- SCRUM
- Driver's license
